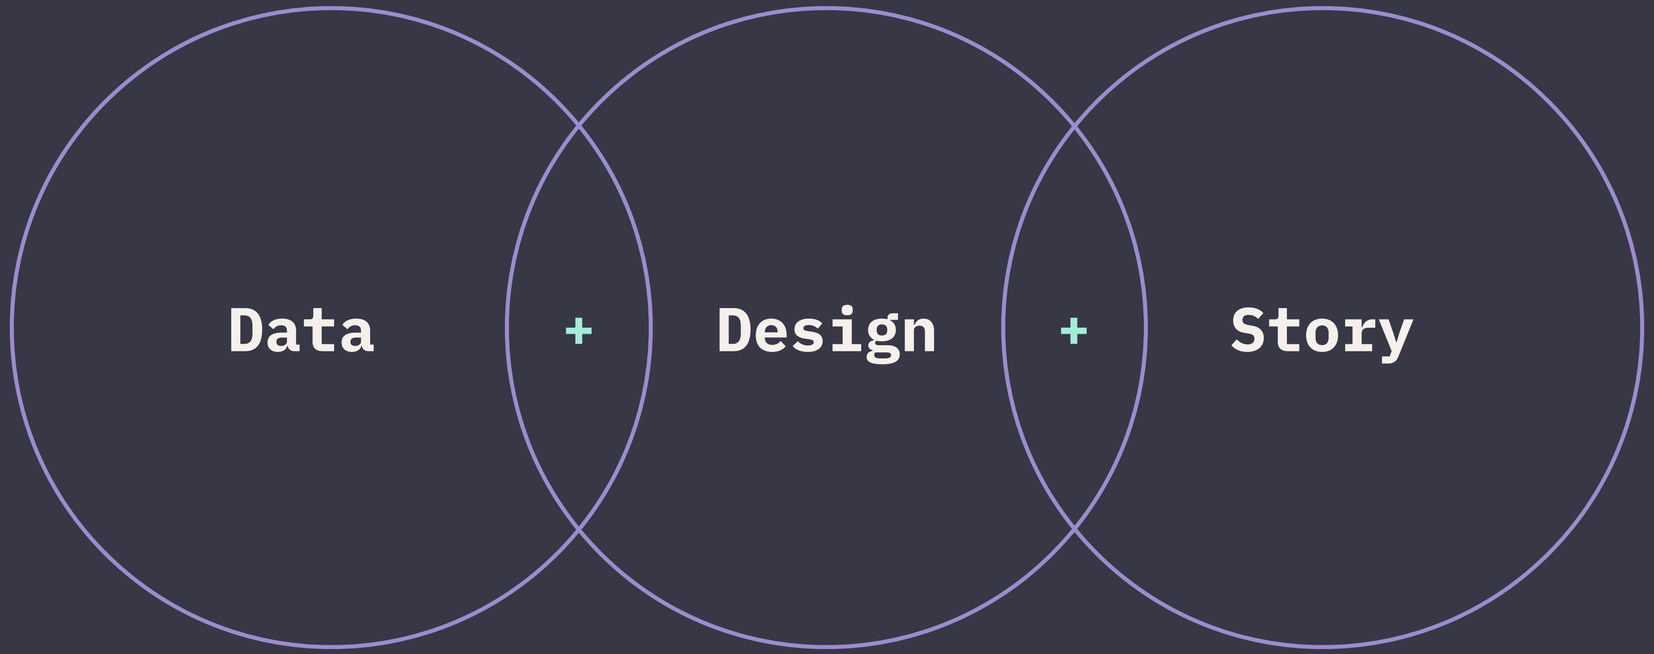
PUNCHUP

We create
meaningful conversation
with data.



SERVICE LIST

1. Consulting

When you've got a story to tell, we combine data, design, technology and creativity to innovate insightful and impactful ways of communication for you.

2. Product

We provide a variety of tools to tell your story way better:

- Data Visualization
- Interactive Content
- Infographic
- Online Content
- Data Motion Story
- Printing Material

3. Workshop

And when you'd like to learn to tell your story yourself, we're happy to offer **a fun and friendly class** for you.

WHO WE ARE

We have **Data Specialist** who analyses and makes sense of big data.

We have **Interaction Designer** who makes product intuitive, efficient and appealing.

We have **Software Engineer** who turns data and design into digital product.

We have **Storyteller** who wields datasets and audience's insight to tell stories.

We have **Innovator** who kickstarts new, effective ways of communication.
